- **Reverse Engineering Facilities**

Welcome To

Sakariya Engineering PVT LTD

Sakariya Engineering PVT LTD is one of the leading manufacturer and exporter of Engineering Components in various type of steels. The company specializes in manufacturing of Crankshafts, Connecting Rods and various type of Automobile and Engineering Application in Power Generation Engines, Marine Engines, defiance, Railway and general engineering, under the brand name of "Seco".

Our products have become synonymous to quality, reliability, durability and value for money. Hence various multinational organizations have preferred us as their vendors. We are also exporting our products to various overseas markets.

Quality focalized products is our major objective, we are well equipped with all major and stand instruments in our standard laboratory. Our technical staff on the other hand is experienced and qualified to undertake quality responsibilities.

Sakariya Engineering PVT LTD was established in 2004 in 5000 sq.meters area with well equipped facilities to produce quality forgings. We have gained quality experience by serving to varous OEMs. The plant has a capacity of 400MT per month and our sources of raw materials of Carbon, Alloy, Stainless Steel and Aluminium are approved steel plants such as RINL, ISSAL, MUSCO, BHUSHAN, KALYANI, REMI, etc. We manufacture profile job from 1kg to 15kg and round job from 1kg to 25kg. The company is ISO 9001-2015, PED and AD 2000 MERKBLAT. We certified company from TUV Germany. The plant is well quipped with in-house Die / Tooling development with Vertical Milling Centre (VMC) Machines and fully equipped forge shop with 1.0T / 1.5T / 2.5T belt drop hammers.

MISSION

To Satisfy our customers by providing high quality engineering solutions that are viable, economical and safe.

VISION

To Grow with the growing economy and provide engineering solutions that impact mankind.

Quality Policy

"Believe in Achieving Excellence through Continuous Imporvement in our Products, Systems and Services. We are committed to provide Quality assured products at right price and at right time."

Quality focalized products is our major objective, we are well equipped with all major and stand instruments in our standard laboratory. Our technical staff on the other hand is experienced and qualified to undertake quality responsibilities.
